

Survey Results Sheet

Instructions: (Please follow these instructions exactly. This chart can be complicated.) For each question, listed from 1 to 50 at the left, enter the number you circled in each white square in the 16 columns to the right. You will be entering one number multiple times in many rows. Total all the numbers in each column, and put the result in the “STOT” (subtotal) row at the bottom of the page. You will enter those results in the form on the “Interpreting Your Results” sheet.

Interpreting Your Results

Instructions: Enter the Number for the total column corresponding to each number at the left in the last column. With a calculator, divide that number by the number in the “Max” column, multiply it by 100, and enter that in the score column.

Example: #1

#	Ministry	Result	/ Max	Score	Note
X	Example	8	/ 15	53%	8 / 15 * 100 = 53%
1	Children		/ 15	%	
2	Outreach		/ 45	%	
3	Missions		/ 30	%	
4	Prayer Ministry		/ 30	%	
5	Intercession		/ 40	%	
6	Proclamation		/ 50	%	
7	Stewardship		/ 20	%	
8	Evangelism		/ 35	%	
9	Teaching		/ 40	%	
10	Youth		/ 10	%	
11	Music		/ 20	%	
12	Visual Arts		/ 15	%	
13	Hospitality		/ 15	%	
14	Administration		/ 10	%	
15	Helping		/ 30	%	
16	Leadership		/ 15	%	

Note: Keep in mind that this is not a scientific survey. That is intentional. This is a tool to stimulate your thinking and your conversation with other members of your church family in order to discover where you belong in ministry. Some questions were chosen especially to get discussion going. Don’t decide that because your score reads a certain thing, that is what you must do in ministry.

The best way to evaluate this survey is using a computer. On the Energion Publications web site there is a form you can use to evaluate the survey results. There is also a spreadsheet on the Computer CD companion also available from Energion Publications. To find these items, go to our web site page for this product (http://www.energionpubs.com/ep_detail.php?sku=1893729273) and follow the links.
